Professional Summary

Senior Salesforce Developer with 4+ years of hands-on experience in designing, developing, and implementing solutions on the Salesforce platform. Expertise spans the full software development lifecycle, with a strong emphasis on leveraging LWC and Apex to build user-centric interfaces and robust backend logic. Proficient in developing reusable components and applying Salesforce best practices. Holds PD1, JD1, and PD2 certifications, complemented by a solid grasp of Salesforce configurations, security, and development tools.

Skills Snapshot

Languages: HTML5, CSS3, Javascript, Apex, NodeJs, C++

Databases & Data Query Languages: SOQL, SOSL, Salesforce Database

Frameworks & Libraries: LWC, SLDS, Jest, Apex Testing, Bryntum Grid, Bryntum Scheduler

Skills: Strong understanding of Data Structure & Algorithm

Tools: Jenkins, VS Code, JIRA, Git, Bitbucket (Stash), Confluence

Work Experience

Metacube Jaipur | Sr. Software Engineer | April 2024 - Present

Project - Professional Services Automation (PSA) by Certinia (Formaly Financialforce)

- Began managing team activities and overseeing release planning and execution.
- Identified requirements, risks, and complexities for upcoming releases; evaluated multiple technical approaches.
- Defined workflow, broke down tasks into user stories, assigned them to team members, and ensured smooth project delivery.
- Optimized performance of existing LWC UI components built with Bryntum Grid and Scheduler.
- Supported the integration of new features into existing user interfaces.
- Assisted other development teams by providing guidance and resolving technical challenges.
- Actively participated in organizational development activities by delivering Salesforce sessions to GETs.

Metacube Jaipur | Software Engineer | Jan 2021 - March 2024

Project - Professional Services Automation (PSA) by Certinia (Formaly Financialforce)

- Worked in an Agile development team, delivering regular updates and collaborating closely with business teams and project managers.
- Specialized in end-to-end UI development, including requirement analysis, testing, and quality assurance. Developed reusable LWC components and Apex code to enhance development efficiency and maintainability.
- Migrated multiple Visualforce pages to Lightning Web Components (LWC) by identifying optimal user experience strategies within the LWC framework.
- Implemented Ant targets to streamline the development process within VS Code.
- Built high-performance UI components using Bryntum Grid and Scheduler, optimized for large data volumes and rich user interaction.
- Contributed to the development of multiple PSA (Professional Services Automation) packages, including PSA Core and PSA Workspace.
- Strong understanding of Salesforce development technologies including Apex, Apex Enterprise Patterns, LWC, JavaScript, and Jest, along with a solid grasp of the Salesforce domain.

- Comprehensive knowledge of Salesforce configurations (Profiles, Roles, Users, Page Layouts, Validation Rules) and security settings (Permission Sets, Permission Set Groups, Custom Permissions, Sharing Rules, etc.).
- Actively participated in organizational development activities by mentoring new GETs.

Metacube Jaipur | Graduate Engineer Trainee | Oct 2020 - Dec 2020

- Started career in Salesforce development with a strong foundation through a 2-month crash course focused on Salesforce fundamentals and development standards.
- Contributed to organizational development activities. Participated in conducting GET exams for new hires.

Remotasks | Outliner | AI Prompt Engineer | Oct 2023 - Jan 2024

- Enhanced AI performance: Utilized problem-solving skills to ask targeted programming/coding questions, leading to improved AI responses on various projects.
- Data-driven optimization: Analyzed and evaluated AI responses, providing better alternatives and driving continuous improvement.
- Expertise in prompts: Designed effective prompts to guide AI towards specific goals and desired outputs.

Certifications & awards

Salesforce: Platform Developer I, Platform Developer II, Javascript Developer I

Hackerrank: JAVA (Basic), Javascript (Basic)(Intermediate), Problem Solving (Basic) (Intermediate)

Udemy: Ethical Hacking Udemy Training

Awards: Metacube Hero in the Rank (1st RnR), Metacube Star Innovator (Q1'25)

Projects

My Portfolio Website [[Code](#)] [[Link](#)]

- A clean, responsive, and mobile-first website designed to showcase my professional work and skills.
- Skills: HTML5 | CSS3 | JavaScript

Salesforce Permission App [[Code](#)]

- Salesforce app to visualize object and field-level permissions for a user at a single place, leveraging permission sets and profiles.
- Skills: Salesforce | LWC | Apex | HTML5 | CSS3 | JavaScript

SHOPPING App In Salesforce [[Code](#)]

- Created Shopping App using VisualForce Page
- Created Shopping App using LWC Component
- Skills: Salesforce | LWC | VF page | Apex | HTML5 | CSS3 | JavaScript | NodeJs

SNAKE GAME [[Code](#)]

- Snake game using graphics library in C++
- 2017 | by managing 2D array of X,Y coordinate
- Skills: C++ | C++ Graphics

Academic History

Bachelor of Technology | CTAE Udaipur | 2016-2020 | 75.80%

- Stream - Information Technology
- GATE 2020 qualified

Senior Secondary | JNV Tonk | 2014-2015 | 80.20%

- Stream - PCM with Computer Science
- Got 97 marks in Computer Science
- JEE Advance 2016 qualified
